### Local and General

Mrs. McCool and family are giving a farewell Dance to their son and brother, Private W. H. McCool, who leaves shortly for the front, on Wednesday, August 16th, at the McCool Barn, 1 mile north and 2 east of Crossfield. Everybody welcome. Ladies please provide.

The results of the recent Departmental Examinations, Grade VIII, published Saturday last, we noticed the names of the following students who sat at Crossfield: Laura A. Stone, Let Caseay, Hazel Pierson, Annie Miller Frazer, Frank Ingram as having passed, Grades IX and X have not yet been published.

Church of the Ascension, 8th Sunday after Trinity, August 13th. Sunday School at 10 a.m. Morning Prayer & Sermon 11 a.m.

Baptism, at All Saints', Cochrane, August 4th, Helen Joyce, infant daughter of Private T. H. S. Harvey, 137th Batt. and Mrs. Harvey of Dog Pound. Mrs. Harvey is well-known in Crossfield, where she was for some time on the Public School staff.

The W.A. of the Church of the Ascension will hold a Tea at Mr. Bray's on Saturday, August 12th from 3 to 5:30 p.m. They will also have a home cooking table.

Mr. and Mrs. Jose journeyed to Calgary on Saturday, Mr. Jose returned Monday morning, Mrs. Jose stayed on till Thursday visiting friends in the city.

Quite a number left Crossfield on Wednesday morning to take in the Stampede, but were disappointed owing to the inclemency of the weather.

At the Meeting of the Women's Institute to be held on Monday, August 28th, in the afternoon, Miss Isabel Noble, President of the Alberta Women's Institute will address the meeting.

Dan McFadyen returned to town on Tuesday morning, having received his discharge from the 187th Batt. as medically unfit for military service. Hard lines on Dan as he was keen on doing his bit.

Miss Alpha Halliday is enjoying a few days holiday at Banff.

Mrs. Frank Evans, of Hamilton, Ontario, is visiting her daughter her daughter Mrs. G. A. C. Dougan.

For Sale--Half a Section of Land 5 miles from station, all fenced, 60 acres broke; or will trade for a threshing outfit. Nothing but a first-class outfit considered.

Apply L. V. Blais.

The ladies of the Beaver Dam Red Cross Sewing Circle met at the West Circle N Ranch on Saturday last and was attended by Mesdames Ingham, Walsh, Matthews, Estes, Baba, Coggan, Kiel, Havens, Buschert, Donald and Mrs. Evans, of Hamilton, Ontario. Mrs. G. A. C. Dougan, of Circle N Ranch East, poured tea and was assisted by the Misses Waterhouse and Morris, of Calgary, who are holidaying at the Waterhouse Ranch.

Mrs. Hargrave and Viola, of Medicine Hat, are visitors at the home of Mr. and Mrs. Dick Reid.

\$5.00 Reward.

For information leading to the return of a 4 year old Light Brown Mare, white spot in face, one white hind foot. Fore top clipped, weight about 950 lbs. No brand.

A. R. THOMAS.

The Number is Limited.

### A Chance For ALL !

There are still residents in this locality who do not take the "Chronicle." We are anxious to get them on our subscription List. Now is your chance to help. Every New Subscriber paying two year's subscriptions \$2.00, will receive a copy of

### "The Veterinarian"

Published at \$2.50

And the Chronicle for two years from date of payment.

Any old Subscriber bringing in Subscription for the next twelve months and a New Subscription for a friend will receive a

Free Copy of "The Veterinarian,"

and the Chronicle for a year.

Any old Subscriber who has paid up for 1916 may obtain a copy at the Reduced price of 60c.

This is a chance that will not be repeated. Hurry Up and Get Yours.

The Number is Limited.

### Hot Weather--Fly Time

Screen Doors, at \$1.50, \$2 & \$3

Adjustable Screen Windows 25c, 35c, & 40c

Screen Wire Cloth, from 24 to 36 in. wide

Fly Swatters--the Good Kind, 15c each

### Cold Weather High Time

To think about Winter Heating.

Let us quote you a price to instal a Furnace.

You will find it Cheaper and Better than Stoves.

If you are building put one in, or we can place one in your house already built.

We Know How to Do It.

Talk it over with us anyway.

Tires Vulcanized. Presto Lite Tanks. Oil and Gas.

AGENT FOR--

Massey Harris Farm Implements.

## TOO LITTLE BLOOD MEANS MUCH MISERY

**That is What Makes People Pale,  
Weak and Languid.**

The one source of most of the misery that affects men and women and growing children, is poverty of the blood. If you consult a doctor he will tell you that anemia is the means of bloodless. That is what makes people drag along, always tired, never really hungry, often unable to digest their food, breathless after slight exertion and too often on the verge of complete breakdown.

More weak, anemic people have become more sluggish, energetic and even fat by taking Dr. Williams' Pink Pills than by any other means. These pills actually make new, rich blood which reaches every part of the body, which gives the body the following health and strength. The following is proof of Dr. Williams' Pink Pills to restore health. Mr. G. G. Miller, New York City, says: "No doubt, constant hard work I got in a badly run down condition. It took very little exertion to tire me, and my appetite was gone. I had a good time. Often I have headaches, and when going up stairs or after any slight exertion my heart would palpitate violently, and I grew weaker and weaker. After a few days in addition, I decided to take Dr. Williams' Pink Pills and after using a few boxes I felt much better. I continued taking the pills for a week longer and they completely cured me. I can warmly recommend this medicine to any who are weak or run down."

You can buy them at almost any medicine dealer or by mail, post paid at 50 cents a box or six boxes for \$2.50 from Dr. Williams' Medicinal Co., Brockville, Ont.

Protect the child from the ravages of worms by using Mother Graves' Worm Exterminator. It is a standard remedy. A year of use have enhanced its reputation.

Wife (with newspaper)—It says here that men get bald because of worms of your brain.

Huh—Exactly! And women have no whiskers because of the intense activity of their chins.

Minard's Liniment Co., Limited. Dear Sirs—This fall I got thrown on a fence and hurt my chest very bad. I could hardly breathe it made me to breathe. I tried all kinds of Liniments but they did me no good.

One bottle of MINARD'S Liniment, warmed on fire, applied and applied on my breast, cured me completely.

C. H. COSSABOOM, Rossway, Digby Co., N. S.

### Fees Ships in American Harbors

There are eighty-eight German and twelve Austrian ships in American ports with a total tonnage of 308,470 tons, on account of the war. The merchant ships may leave when they like, but warships must remain till the termination of the war. The reason why the British warships remain is because the Allies maintain an effective patrol outside the three mile limit.

### Defeat

What is defeat? Nothing but education, nothing but the first step to something better.

## In this Matter of Health

one is either with the winners or with the losers.

It's largely a question of right eating—right food. For sound health one must cut out rich, indigestible foods and choose those that are known to contain the elements that build sturdy bodies and keen brains.

## Grape-Nuts

is a wonderfully balanced food, made from whole wheat and barley. It contains all the nutriment of the grain, including the mineral phosphates, indispensable in Nature's plan for body and brain rebuilding.

Grape-Nuts is a concentrated food, easy to digest. It is economical, has delicious flavor, comes ready to eat, and has helped thousands in the winning class.

### "There's a Reason"

Windsor, Ont.

W. H. U. 1113

## Forestry Farms.

**Changing the Treeless Prairie Into a Park-Like Country**

Saskatchewan requires more Forestry Farms. Then there would be at least two lectures continuously on the forestry and meadows, giving lectures on forestry shelter-trees, giving the gospel of tree-planting should be brought to farmers. These lectures should be held in towns and locations of farmers who are anxious and ready to plant trees, send in lists to the head office in the province, and inspectors should be sent out to examine these farms so as to advise farmers where to plant, and how to prepare the ground for the following year's planting. It is at right to exhort the Canadian Conservation Commission to enthuse citizens the Dominion over on what our natural resources are, and how they should be conserved. In the practical working end of the problem should not be neglected. Give Saskatchewan forest, farms and practical men to help promote these interests. After a few years the treeless, wind-swept prairies would be changed to a park-like country, with trees on every farm."—Saskatchewan Farmer.

## They All Went Away Together

### P. A. BONNOT'S RHEUMATISM CURED BY DODD'S KIDNEY PILLS

And With It Went All Those Symptoms Which Made the Earlier Stages of Kidney Trouble.

Grand Clairiere, Man. (Special)

"All persons who suffer from rheumatism should use Dodd's Kidney Pills." This is the statement volunteered by Mr. J. C. Dodd, a well-known medical man of this place.

Asked to give the reasons why Mr. Bonnot said:

"I suffered for three years from rheumatism. I consulted a doctor without getting any results. Four boxes of Dodd's Kidney Pills fixed me up."

That rheumatism is caused by sick kidneys failing to strain the uric acid out of the blood was again shown in Mr. Bonnot's case. His earlier symptoms were a swelling of the kidneys and unrefreshing sleep, fitful appetites, a tired nervous feeling, a heavy head after meals, neuralgia and backache.

When he cured his kidneys with Dodd's Kidney Pills the rheumatism and all the other symptoms of kidney trouble disappeared.

A Millionaire's Restitution

Wm. F. Cochran of Baltimore says:

"I am seeking to find a cure for

feeling a severe and deep yearning

to make my life count for something. I am seeking to find a restitu-

tion, some degree to society for the

debt which I owe it. Particularly am I

concerned about that section of society

in the sweat of whose brows I have

lived and now, and the wages which

I have had a free ride abt."—Baltimore Christian Socialist.

Choked for Air. Some little irritant becomes lodged in the bronchial tubes, others gather, and the awful choking asthma results. Nothing offers quite such relief and comfort as J. D. Kellogg's Asthma Remedy. The healing, soothing smoke or vapor penetrates, clears the passage and gives relief immediately. It completely cures. It has behind it years of success. It is the sure remedy for every sufferer.

According to a heart specialist, if one retires to bed at ten instead of twelve he saves the heart 376,000 foot-pounds of energy. Lying down for an hour daily lessens its labor in the same period by 219,000 foot-pounds.

It Will Cure a Cold.—Colds are the commonest ailments of mankind and if neglected may lead to serious conditions. Dr. Thomas' Electric Oil will remove the lymphatic passages, inflammation, swelling of the throat and will strengthen them against subsequent attack. And as it eases the throat, it also helps to stop the cough because it relieves all irritation in the throat. Try it and prove it.

Italian Royalty's Narrow Escape

Italy's Queen and her Imperial Guard

raiders who dropped bombs near the

train on which Queen Helena and the

Princesses Jolanda and Haraldia were

travelling. The Queen was on

the way from a section of the front

to Venice when the Austrian aeroplane

dropped the bombs.

The train was in darkness, but

despite these precautions bombs fell

on the line near the train, breaking

telegraph wires.

Minard's Liniment Cures Garget in Cows.

A Back Door Dodge

When German meets German then

comes the tug of war. The butchers

of course do not all care for the

State organization of meat.

One enterprising son of "Kultur"

secreted five tons of meat in his

pantry and set it to "good cus-

tomers" at the back door. When

met with the discovery, the wily

butcher pointed to the regulations

which specified that the restrictions

only applied to meat sold over the

counter. The law has been made

more specific.

THE CHRONICLE, CROSSFIELD, ALBERTA

## Stamps as Spy Messages

Arranged to Convey Information of a Naval or Military Nature

The Italian Government has forbidden the exportation and the German Government the importation of used postage stamps, according to information received from Switzerland by Hugh Clark, a New York philatelist.

American dealers' supplies of stamps from Italy are thus suspended; and those from Germany are delayed because they must come by way of Rouen, France, or Oran, whereas formerly they reached here by way of Italy.

The British Government does not permit German stamps to be sent by way of Holland or the Swiss or Austrian countries—according to local philatelists.

The letter received by Mr. Clark carried the intimation that secret agents were using postage stamps to convey information of a naval or military nature.

Lucus, City of Toledo.

Lucus, Ohio, writes that he is senior partner of the firm of J. Cheney & Co., doing business in the City of Toledo, Ohio. The firm of J. Cheney & Co., Toledo, Ohio, will pay one thousand dollars for each and every stamp of HALL'S CATARACH CURE.

FRANK L. CHASEY.

Sworn to before me and subscribed in my presence, this 6th day of December, A.D. 1886.

(SEAL) Wm. A. BREND, Notary Public.

Mr. Chasey's Cure is taken internally and acts through the blood on the skin surfaces of the System, and for testimonials, free.

R. J. CHASEY & CO., Toledo, O.

Sold by all druggists, 75c per box.

Hall's Family Pills for Consumption.

Prevent Collisions in Darkness or Fog

Announcement has been made that William Marconi will bring out shortly a device which should pass an end of a string of colored glass beads in darkness or fog.

It is described as a simple contrivance, easily installed, which will be operated from the bridge.

DR. W. M. A. BREND.

One who always told me that in taking you I was marrying beneath my station."

"Beneath your station, eh? That was a station your family had; it was just a water tank."

"There is no law to prevent either me or my wife from purchasing any maximum of wheat in the loaf."—Dr. Wm. A. Brend in the Nineteenth Century.

Van Dusen (at Van Rock's country seat)—Mr. Van Rock, I love the very ground you walk on!

Van Rock—Well, it's for sale if you have the price.

Get a spoon, Freddie. Mother has

something for you."

"A big spoon or a little spoon?"

"What difference does it make?"

"Mother, here's difference. Is it

medicine you got or ice cream?"—Kansas City Journal.

Van Dusen (at Van Rock's country

seat)—Mr. Van Rock, I love the very

ground you walk on!

Van Rock—Well, it's for sale if you have the price.

## THE RIGHT OIL IN THE RIGHT PLACE

NO lubricant is good enough for every purpose. You don't want to use the same oil on a high-speed, low-power tractor as on a low-speed, high-power tractor. You can't use the same oil in your thresher as you do on a spindle.

The Imperial Oil Company makes a special oil exactly suited to every part of every farm machine.

### STANDARD GAS ENGINE OIL

Recommended by leading builders for all types of internal combustion engines, whether tractor or stationary, gasoline or kerosene. It keeps its body at high temperature, is practically free from carbon, and is absolutely uniform in quality.

### PRairie HARVESTER OIL

An excellent all-round lubricant for exposed bearings of harvesters and other farm machinery. Stays on the bearings; will not gum or corrode.

### CAPITOL CYLINDER OIL

The most effective and economical lubricant for steam engine cylinders; proven superior in practical competition with other cylinder oils.

### ELDORADO CASTOR OIL

A high-grade, thick-bodied oil, for lubricating the loose bearings of farm machinery, sawmills and factory shafting.

### THRESHER HARD OIL

Keeps the cool bearing cool. Does not depend on heat or friction to cause it to lubricate.

STEEL BARRELS—All our oils can be obtained in 28-gallon and 45 gallon steel barrels. These barrels save their cost by eliminating leakage. You use every drop you pay for. Clean and convenient.

If your lubricating problem gives you trouble, let us help you. Tell us the machine, the make, the part—and we will gladly give you the benefit of our experience in selecting the proper lubricants.

" Thurlow, 1  
" Tweedale, 1 pair socks.  
" Brandon, 4 T and 12 trian. bandages.

The Crossfield Circle meets this week at the home of Mrs. S. Collins, and next week with Mrs. Jessiman.

**The Public Meeting**

A ratepayers and public meeting was held in the Fire Hall, on Friday evening last for the purpose of passing a resolution confirming the Government's action in continuing the war. Believing it to be a righteous cause, also a war for the liberty of the community, Mr. Morrow moved the resolution, and Mr. Wicks seconded. Messrs. S. Collins and R. Whitfield supported. It was decided that a vote of thanks be sent to the ladies of the local Red Cross Society who were doing so nobly in helping on the cause of the allies. It was thought that Crossfield had done excellent both in sending men and helping in the relief of the suffering and injured.

The question of a sidewalk to the School was next discussed, and it was decided to lay a walk continuing the present piece running west from the Atlas Lumber Yard to Mr. Ontkes corner, also if permission can be obtained from the owners of the land, to lay a plank sidewalk running north from Mr. Bray's corner to the village boundary. The meeting was not as well attended by the ratepayers as it might have been. Mr. S. Collins, Reeve, occupied the chair.

**Addressing of Mail.**

In order to facilitate the handling of mail at the Post Office and to insure prompt delivery, it is requested that all mail be addressed as follows:—

- (a) Regimental Number.....
- (b) Rank.....
- (c) Name.....
- (d) Squadron, Battery or Company.....
- (e) Battalion, Regiment, (or other unit) Staff appointment or Department.....
- (f) CANADIAN CONTINGENT.....
- (g) British Expeditionary Force.....
- (h) Army Post Office, LONDON, ENGLAND.....

Unnecessary mention of higher formations, such as brigades, divisions, etc. is strictly forbidden, and causes delay.

Foreign countries do not support Canadian factories. Why support them? Buy "Made-in-Canada" goods and help Canadians.

**Alberta Horses at the Front**

Horse buyers for the French Army are again in the Province of Alberta. They took out of Alberta last year over a thousand head, and they want more. Artillery animals only are wanted at the present time, and those of the lighter weights. The stout active horse has proven his superiority over the big fellows for the type of warfare now going on. These are the good ones on the Western front. Animals weighing between 1,100 and 1,200 pounds bring \$130. Between 1,200 and 1,300 pounds \$140. The Commission will be at Castans on Monday, August 14th, morning and afternoon.

## Horses for the War

Nearly 750,000 Horses Sent to Europe From the United States

G. E. Wentworth: Cook Co., Ill., writing to the Breeder's Gazette, Chicago, makes some very interesting statements concerning the shipment of horses for military purposes from the other side of the line. He states that:

"Nearly 750,000 horses and mules have been purchased in the United States for foreign account since Sept. 1, 1914. While the number is but a small percentage of America's herd, and more stores in the business have nevertheless been a tremendous one. Twenty-two horses make up an average unit of express load. With the statement that 34,000 cars have been shipped from the country to the coast, taking no account of short local shipments, we can estimate that there were no less than an average of 1,600 miles shipped each. The 34,000 cars earned for the railroad and express companies \$5,300,000."

"It was a lucky horse that voyaged from farm to steamboat in less than 15 days. Six million dollars for cars in stores, markets, stockyards and concentrations, and the estimate of the cost. Turned out in pens on the coast, the horses were required to pay their way to market. With the necessary alleys, feed barns, hay sheds and railroad facilities, these pens would have cost \$100 per acre, or a mile in width by two miles in length—a space twice as large as the Union Stock Yards of Chicago, which accommodates 500,000 animals of different breeds."

"Placed side by side in one long row of comfortable single stalls, the weight of the horses from Chicago to the city limits to Grand Island, Neb. In marching order, close formation, the 300,000 cavalry and 2,600 full batteries of 180 horses each, would reach from Chicago to Boston."

## To Get Together

**Co-operation Between the Farmer and Merchant**

A committee of agriculture and commerce is to be formed in Saskatchewan to meet the recommendations of the Regina Board of Trade is to be carried out.

The matter was fully discussed at a meeting of the board recently. It was shown that the object of the committee would be to discuss all matters at issue between the various interests and to advance the welfare of the people of the province by co-operating to the fullest possible extent.

Co-operation between the farmer and the business man has not always been in evidence. Indeed a spirit of enmity seems to exist between them in many parts of the country, as if one was the natural prey of the other. This spirit of antagonism is inherent in the present system of commerce, the business man or merchant is as necessary to the farmer as the farmer is to the merchant. By working together with a mutual understanding, the welfare of each would be safeguarded. Other provinces might well follow the lead of Saskatchewan.

## Main German Purpose

Many do not yet realize the main feature of the battle was not the sinking of ships, vessels that were lost, or the chasing of the German fleet back to port, but in the prevention of their design, which it may have been to capture or despatch northward. It is morally certain that the intention was to get a number of raiding cruisers loose in the Atlantic. It is also morally certain that the result of success in this would have meant British commerce of all kinds, which had been demoralized, and in addition to that, to have the raiders, a large number of vessels would have been taken out of their ports to be captured or destroyed by the raiders. This would have had the effect of breaking up the present ranks of the navy and weakening the forces in the North Sea opposed to the German fleet. All who have been decided, seriously, and its prevention constitutes the most notable immediate result of the battle.—Toronto Globe.

**Educated Town Ladies For Farms**

Ladies' Schools in certain parts of the country are greatly concerned for the front by a larger rally of competent women workers for farms. One of the drawbacks in their contention is the lack of accommodation for women at the farms.

In speaking on the subject he made an appeal for more recruits. He said that the ladies that played tennis in the suburbs of London were among the most virile in England, and he thought their splendid powers should be brought into service for the country at this hour, and he appealed to squires, clergymen, and others to billet such as would apply to work farms from that class of society.

The War Office did not wish to move military huts from place to place—otherwise they would do so.

"How does the breakfast suit you, John?" inquired the young bride anxiously.

"It's just right, dearest," said her husband. "It may be plebian, but I'm awfully fond of calves' liver for breakfast."

"So am I," said the wife. "Oh, John, don't you think it would pay us to keep a calf? Then we could have liver every morning for breakfast."

## Anarchists for France

**War to End War is Hope of Strange Classes**

Germany not only made the Apache disappear from Paris; she also transformed all anarchists into patriotic soldiers. There is a man of fact, practically every known anarchist, a real patriot, not unwillingly, but with the greatest enthusiasm. A Paris paper interviewed one of the anarchist leaders and found that with the exception of those too old to be accepted even as volunteers, all were willing to serve.

One of them, formerly a professor and a champion of the most violent anarchistic doctrines, wrote the following words to the French government: "There have been moments when I have asked myself why am I here. I have answered myself: First, because I had to go; but, later on, because I realized that it was my duty, and that I must do my duty, and that I must make me quit. I have won promotion and I, who a year ago would have despised the stripes on my sleeves, am now promoted to the rank of captain of the sixty men under my command. I have sixty comrades, six friends, the soldiers, confident to my care.

"I have little patience and this attitude will not change. I am sure that it cannot last much longer. War is even more horrible than I imagined but not for a single moment have I regretted that I have joined the war. My hope is that it will be the last, and it is the hope that our children will not have to engage in another which insures me with almost superhuman strength and a firm determination to endure until the end."

## Peace Prospects in Europe

As to the possibility of peace, I should say at once that neither in Great Britain nor in France, nor in Germany, nor in any of the other countries in Europe, as far as I know, is there any means available to bring about a peace. As far as France I may mention as typical the comment of a former French Premier. I asked him what would happen to a French soldier who had been captured and was now engaged in another which inspired me with almost superhuman strength and a firm determination to endure until the end."

**The Peasant in Europe**

As to the possibility of peace, I should say at once that neither in Great Britain nor in France, nor in Germany, nor in any of the other countries in Europe, as far as I know, is there any means available to bring about a peace. As far as France I may mention as typical the comment of a former French Premier. I asked him what would happen to a French soldier who had been captured and was now engaged in another which inspired me with almost superhuman strength and a firm determination to endure until the end."

**Attitudes of Theologians**

The greatest tragedy of this war is the incomprehensible attitude of German theologians and teachers regarding the brutal and immoral methods used in the conduct of the war.

Forty years ago Paul de Lestrange, one of the chief moulder of German thought, wrote: "In the year 1515 the papacy was established in the hills of the Alps, and the permanence of Albert is not wholly dependent upon its crops." The crop which is the stock interests before its possibilities as a grain producing country was not fully realized. Definite figures of stock production are not easily obtained as in the case of grain, but the following taken from the government returns are sufficient to accurate to prove that the papacy, as far as 1911 we get the following evidence of the development of the live stock industry:

**Livestock in Alberta**

	1911	1915
Dairy Cows	407,153	620,000
Other Cattle	592,163	910,000
Sheep	133,525	220,000
Swine	237,510	400,000

The dairy products of Alberta for the year 1915 were worth \$11,000,000.

The production of creamy butter was in the neighborhood of 7,000,000 pounds compared with 4,000,000 in 1910.

The province has an excellent system of grading, handling and marketing its butter, which has resulted in a realization of the market that surrounds the Alberta marketman top prices for its produce. The dairy produce of Alberta in 1915 was worth \$11,000,000.

The production of creamy butter was in the neighborhood of 7,000,000 pounds compared with 4,000,000 in 1910.

The province has an excellent system of grading, handling and marketing its butter, which has resulted in a realization of the market that surrounds the Alberta marketman top prices for its produce. The dairy produce of Alberta in 1915 was worth \$11,000,000.

# CHEW "PAY ROLL" TOBACCO

A BRIGHT TOBACCO OF THE FINEST QUALITY

10 CENTS PER PLUG

## :# LADY # URSULA'S HUSBAND

—BY—  
FLORENCE WARDEN  
Ward & Co., Limited  
TORONTO

(Continued)

It was late that night, when all the guests had retired to their rooms, that Lady Ursula and her husband were startled by a shrill scream from the room above. In the room, they ascertained that the cries, which were repeated from time to time occupied by the Honorable Mrs. Finchden and her son.

There were curious faces at one or two of the doors, and Lady Ursula in her dressing-gown went up to see what the matter was.

A knock at the door brought Mrs. Finchden herself, sobbing and distraught, to meet the inquirer.

"What can you do?" asked Mrs. Finchden. "Are you ill? Can I do anything?" asked Lady Ursula gently.

But the poor lady only sobbed and shook her head.

"You can do nothing, nothing. No, I'm not ill. It's my pearls!" cried she in despairing tones.

And Lady Ursula saw the loss her husband was standing close under the electric light, examining the famous necklace of five rows of well-matched pearls which was the American lady's greatest treasure.

"What has happened to them?" asked Lady Ursula.

"Hugh said Mr. Finchden, shutting down and trying to calm his wife, "We don't quite know yet."

"I know," sobbed the lady. "Some one has got at my necklace, and stolen all the pearls."

Lady Ursula stared at the necklace in surprise.

"We have three more than five rows?" she asked, as she counted them.

Mrs. Finchden dashed the tears from her eyes frantically.

"There were three rows of real pearls," she cried. "Out of these five rows three have been changed; I'm sure of it. My necklace has been tampered with."

Lady Ursula uttered an exclamation of incredulity. Mr. Finchden looked up.

"I'm afraid she's right," he said. "I struck me tonight that the necklace didn't look the same, and I've examined it, and I've come to the conclusion that it has been tampered with. I'm going to take it up to town tomorrow morning, and if we're right, I shall go straight on to Scotland Yard, and put the matter into the hands of the police."

## CHAPTER XI.

Of the four people in the room, there was only one who remained absolutely calm over this matter of the pearl necklace and the suspicions of the Finchdens.

This was Paul Weyne, who listened attentively to what everyone said, with a smile fixed on his face.

"Well," said he, "if you are really sure that the necklace has been tampered with, I am sure you have no alternative. You must give it over to the hands of the police. The value of the pearls makes them a master a service once."

The ladies were both a little flustered by the suggestion.

"Oh, murmured Mrs. Finchden, wiping her eyes. "I shouldn't like to part with it, but I suppose what would papa and mama say? It would be dreadful!"

"My dear, we can't afford to take the risk of losing thousands pounds' worth of pearls without turning a hair," protested her husband.

Paul uttered an exclamation.

"Eighteen thousand pounds!" cried he.

"That is what was paid for the three rows," said Finchden. "Wasn't it, Mamie?"

Mamie, amid her sobs, admitted that it was.

"I can't think how it was got at," moaned Mamie. "When I am not wearing them I leave them in care of Jones, and she is an absolutely trustworthy girl."

"They always are trustworthy, till you find them out," growled her husband.

"Let me look at the things," said Paul.

Finchden beckoned him under the bed.

## When Your Eyes Need Care

**Eye Salve**—Acta Quicksilv. Try it for Red Eye, Bore Eyes and Granulated Eyelids. Nitrous acid and Camphor. Contains Ointment of Sassafras Medicines—but used in successful Physician's Practice. Price 25c. Postage Paid. Manufactured by the Public and sold by Druggists at 50¢ per bottle. Send for booklets "How to Protect Your Eyes" and "How to Prevent Eye Disease." W. H. and Son. Write for booklets of the Eye Free. Marine Eye Remedy Company, Chicago, Ill.

W. H. and Son

electric light and the two men looked at the necklace together.

"I'm afraid I can't help you much," said Paul modestly. "I can't see much difference between any of these pearls."

"Ask Lady Ursula," said Finchden sharply.

Lady Ursula had held aloof from all this discussion; she was standing near the door, with her face turned, still in a statue. On hearing her name she turned, and they all saw that her cheeks were very pale.

"Yes, Lady Ursula," urged Mrs. Finchden. "Go and look at them. Tell me if you don't notice any difference."

Lady Ursula hesitated for one moment, then, without a word, crossed the floor quickly. Finchden, with a nice sense of delicacy, held the necklet before her.

"Phans, Mamie, Lady Ursula would rather not be drawn into this rather unpleasant business," he said.

"Drawn into it?" she said; "how can she be drawn in?"

"I mean," Finchden hastily, "that if we are going to have to call in a policeman, it is better that the person who looks at the pearls tonight will be called as a witness, for certain."

Then Lady Ursula spoke for the first time.

"Never mind that," she said in low voice; "I should like to see whether I can detect anything."

Paul handed her the necklace and upon her arm to draw her back.

"I wouldn't if I were you, child," he said with a smile of appropriate gravity.

Paul guided her to the door and led her out of the way.

"I should like to see the necklace," she said quietly.

Finchden thrust it suddenly into her hands. She raised the rows of pearls one by one, examined them attentively, while Mrs. Finchden dried her eyes.

"Then, a little pausing before back into Finchden's hands.

"I should like to see the necklace," she said again.

Finchden thrust it suddenly into her hands. She raised the rows of pearls one by one, examined them attentively, while Mrs. Finchden dried her eyes.

"Then, a little pausing before back into Finchden's hands.

"I should like to see the necklace," she said again.

Finchden thrust it suddenly into her hands. She raised the rows of pearls one by one, examined them attentively, while Mrs. Finchden dried her eyes.

"Then, a little pausing before back into Finchden's hands.

"I should like to see the necklace," she said again.

**Why The Patriotic Fund Is  
Not Raised By  
Taxation**

In view of the fact that a new campaign will be started very shortly, the central committee for Southern Alberta has just given out the following statement explaining why the Patriotic Fund is raised by voluntary subscription instead of by taxation.

Under the Canadian system of conscription, government would have to tax taxation upon lands and similar resources, rest in the hands of the provincial governments and the municipalities. The province of Alberta would have the right to raise money for patriotic purposes by imposing a property and poll tax, but no legislation to that end has been passed and could not now be enacted and be made effective in time to provide the fund needed this year to care for the soldiers' dependents, and it must also be remembered that under existing conditions the collection of taxes either by the provincial government or the municipalities is so slow that the dependents of soldiers would have more money from the taxes which would be available, and the cost of collecting the tax would be at least ten times what it costs to collect the voluntary contributions.

The Dominion Government could, of course, provide a patriotic fund by donating so many millions of dollars for that purpose, but the Government's outlay is already very much more than its income from taxation, and any additional outlay would have to be met by the issuance of bonds. This would mean that the people of Canada, instead of providing for the wives and children of our soldiers out of their income, would be providing for them out of borrowed money, which would have to be paid back in years to come, and the same would be true of the men and women whose return would have to pay their share of this debt. It would be poor assistance to families of our noble defenders that had attached to it the condition that in years to come they must pay it back with interest in some form of taxation.

Under the Canadian system re-enlisting is voluntary, and it seems consistent that those who form inability or choice are not in uniform should show their good spirit by a voluntary contribution to the Patriotic Fund. To make the contribution compulsory by taxation would remove from it all the virtue of a voluntary donation, and it is believed in these days when the men at the front and their relatives are making such tremendous sacrifices, that it is only those who do not wish to voluntarily make some contribution to the general cause. In order, however, that those who attempt to evade their responsibility and will neither fight at the front nor contribute to the Patriotic Fund at home may be properly labelled, it is the intention this year to publish not only the list of donations, but also lists of those who are in a position to assist this cause and who refuse to do so.

It may be added that the whole question of taxation vs. voluntary contribution has had the most serious consideration by those who have the welfare of the Fund at heart, and the voluntary system seems the only possible solution. By this voluntary system men and women are giving their service in whole or in part absolutely without charge and the percentage of the contributions which actually reaches the beneficiaries is very much greater than would be possible under any system of taxation, where all services rendered would have to be paid for. It is also worth pointing out that it is much easier to start some new form of taxation than to get rid of it, and the opinion of those who have made a study of this problem is that it is wiser to meet the situation by voluntary contributions than to introduce some additional tax which would remain as a纪念 of the war, perhaps to future generations.

**Cheap Railway Rates  
For Men Going to  
Harvest the Grain**

The Department of Agriculture has arranged with the railway companies to grant a rate of one cent. per mile with a minimum of \$1.50 for harvest help to all points within the province upon presentation of certificates signed by Mr. Charles S. Hotchkiss, Chief Publicity Commissioner, Edmonton, valid during the month of August.

These certificates may be obtained from

Mr. J. W. Lathbridge, Mr. H. J. Dally, Crossfield Building, First Street East, Calgary, and at the offices of the Chief Publicity Commissioner, Edmonton.

Farmers requiring farm help should apply direct to the above, and to Mr. L. Hartman at Sarcee Camp, where the Department has opened an office to assist in obtaining soldiers for harvest help.

**Empire Defenders.**

We print herewith a list of the men from the Crossfield area who have joined the ranks of our Empire Defenders.

Should any names have been omitted and any of our readers be able to supply the name with the place where it should go to
